MGS MISSION

Our mission is to develop confident professionals utilizing the most effective and innovative neurodevelopmental knowledge for the benefit of the world.

VISION

To be recognized as the global leader in holistic neurodevelopmental education, knowledge, and application.

THE DEGREE

The master's program focuses on ground-breaking knowledge and research for improvement of physical, social, cognitive, and emotional well-being. The three pillars of focus:

Neurodevelopment

with an emphasis on maximizing growth and development through neuroreflex integration.

Masgutova NeuroReflex

to evaluate status of reflex patterns through Reflex Screening and Evaluation tools and programs.

Neuromodulation

a suite of novel facilitation procedures that target modulation of natural sensory, motor, and processing aspects of a reflex circuit.

This innovative master's degree targets an interdisciplinary population of professionals.
